Copley Police Recover Stolen Property

In November 2018 the Copley Police Department investigated several incidents in which persons stole items from unlocked vehicles parked in driveways in the Minor Road – Hametown Road area. Officers believed that juveniles living in that area might be responsible, but there was limited evidence.

Copley Police have now identified a suspect and have recovered some of the stolen property. Some property has already been returned to the owners. Officers recovered the speakers pictured here. We believe these were stolen but do not know who they were stolen from. If you recognize these speakers, please contact Det. Yovanno at the Copley Police Department at 330-670-2723.
