

**SOLID WASTE AND RECYCLING SERVICE
EXEMPT REQUEST FORM**

As a resident of Copley Township, you are qualified to receive weekly curbside collection of trash, recycling, and yard waste at a much reduced rate under the Residential Trash and Recycling Service with Republic Services. This has been a result of our community being able to offer one hauler a large, stable customer base. The hauler is able to maximize its efficiencies and everybody benefits. However, since the bid is based on this stable customer base, there is no opt-out clause for residents.

Our program does allow an exemption from the residential service for business owners that already pay for trash service through their business. If you are obligated to the Residential Trash and Recycling Service but currently process your trash and recyclables through your place of business, you can make an application to Copley Township for an exemption from the Residential Trash and Recycling Service. Please complete this Exemption Request Form and submit it to Copley Township for review. If approved, the Township will notify Republic Services of your exemption.

Resident Name: _____

Resident Address: _____

Resident Phone: _____

Please choose one of the following:

- I own my own business where I already pay for trash service. Please list the name, address, and phone number of your business:

- The property I own in Copley Township is not my primary residence: I currently pay for trash service at a different location. Please list the address for your primary residence.

- This property is VACANT.

**Additional comments or notes may be added to the back of this form.*

I certify the information I have provided above is true.
